Please make sure ALL measurements are in centimetres. All measurements should be taken by someone else for accurate results.

Full Height:

We require your full height to check that measurements appear correct. Please give your full height without shoes on.

Waist:

Measure around waist at navel height. Take measurement firmly so the kilt sits comfortably without falling down.

Kilt Length:

Stand with your feet apart and looking straight forward, do not bend over to see what's happening. The measurement is taken from the navel to the middle of the kneecap.

Chest:

Measure loosely around chest at arm height while wearing a shirt with arms by the sides. Do not inflate the chest.

Sleeve Length:

Measure with your arm by your side from the seam of your shoulder to desired length at the cuff. Ideally half an inch cuff should be visible.

Collar:

Measure round your collar ensuring a comfortable fit.

Shoe (Specify UK, US or European):

Tartan:
